SHOULD ACCIDENTS TO CHILDREN IN SCHOOL BE REPORTED TO THE HEALTH AND SAFETY AUTHORITY?

The following types of accidents to school pupils must be reported to the Health and Safety Authority, by the school either online at www.hsa.ie or on the Incident Report Form (IR1):

A death, or an injury that requires treatment by a registered medical practitioner, which does not occur while a person is at work, but is related to either a work activity or their place of work. This applies to pupils in certain circumstances.

If the pupil is injured as a result of a work-related activity and requires medical treatment by a registered medical practitioner, this is reportable to the Health and Safety Authority.

Example 1: if a pupil is injured when using a mallet and chisel during wood working class, and requires treatment by a registered medical practitioner, this is reportable. However, if a pupil trips in the school yard this is not reportable.

Example 2: if a student trips during PE class and requires treatment by a registered medical practitioner, this is reportable. Where students are taken on school trips, they are considered to be a normal part of the work activities. Therefore, if a pupil is injured during the school trip and requires medical treatment this too is reportable.
