

ALC Blue Summer Newsletter 2021

'What an extraordinary year. We've learned how even the most challenging of times can bring out the best in us and we've had some fun along the way!

Our window greenhouses

We watched our seeds germinate in our window greenhouses. We've potted them on and they are now transplanted into our flower bed. We can't wait to see them grow into lovely plants.

Boomwhacker band

We've enjoyed our boomwhacker sessions and our music rhythm lessons over the year.

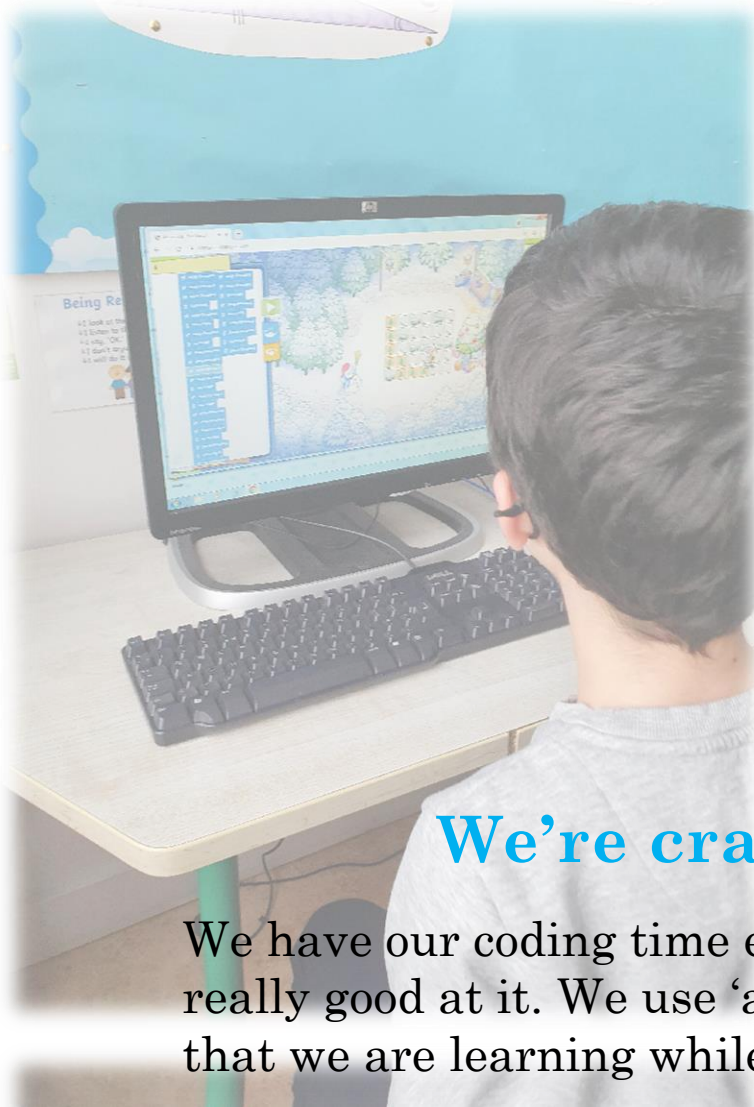

We are so lucky to have amazing parks on our doorstep

We really like going on walks to our local parks.

2km runs

We started small, just running one lap around the hall and we gradually built up to an epic 2K every day!

We're crazy for coding

We have our coding time everyday and we're getting really good at it. We use 'allcancode' and can't believe that we are learning while playing a game.

I am loved

I am special

I am unique

I am important

I am proud to be me!

STEAM

We loved making our special constructions with LED's during Tech week. From the infinity gauntlet and the Eiffel Tower to a John Deere tractor and FedEx Cessna all with working lights!

The power of Thanos

Engineers Week

We all agree that Engineers Week was our favourite week this year. We designed and built some amazing rollercoasters, catapults and mazes.

Seachtain na Gaeilge

We started our stop animation journey in Seachtain na Gaeilge, where we animated Baidín Fheilimí over the week with a sticky and not so sticky ending (guess which one is in the picture here!)

Have a fabulous Summer break everyone!
