

THIRD CLASS

YEAR IN REVIEW - 2022

What a year it has been! The children worked tremendously well this year and each and every one of them should be so proud of their wonderful achievements! I watched curious minds learn, beautiful friendships blossom, confidence grow and goals being achieved. Our year was packed with lots of fun activities and projects and some of the ones the children noted included gardening, coding, our school tour and our trip to Albert College Park (where we had ice-pops!) The children recalled learning all about Tom Crean, The Egyptians, The Environment and Life in Greece (Kalimera!)

The children were a HUGE help in the garden this year and they made a fantastic job of our planting beds ahead of our whole school planting day.
