

Greetings from David's second class!

This year has been full of learning and fun in room 11! Below are some of our favourite moments!

Construction – We built our own towns, deciding what we need to have to serve the population. It led to great debate and lots of listening and compromise. Our towns were amazing!

Grandparents Day – Undoubtedly one of the highlights of the year, we had the privilege of welcoming many grandparents to our class back in December. We performed 'An Hocaí Pocaí', shared our SESE projects and played some games with all our visitors.

Halloween – Halloween was taken very seriously in our room! Check out the range of costumes!

Outdoor Art – Back in November, we explored our outdoor spaces to help us create some interesting art pieces.

Well-being week – There were many gorgeous activities for well-being week, including pyjama day!

Power Hour – In February and March, we were lucky enough to have a literacy power hour in our class twice a week for a six-week stretch. It really helped us with our reading, our poetry and our writing.

End of year fun – In early June, we had a number of exciting events. Sports day (pictured above) was a great success. Our school tour to Squirrel Scramble in Co Wicklow was lots of fun. We zipped and climbed through the forest and got the chance to play some cool co-operative games too. Finally, Art day gave us a chance to flex our artistic muscles. There was a little something for everyone!

Glasnevin Educate Together

Second Class - 2022~2023

Have a lovely summer everyone!
