

Second Class Summer Newsletter – Jill's Class

We had so much fun this year in Second Class. We have been very busy enjoying nature, swimming, trips out of the classroom to Irish Aid, The National Gallery, The Botanic Gardens, participating in Sports Day, Art Day, our tour to Squirrel Scramble, not to mention what we've been up to in the classroom! Here's a small taste of Second Class...

Zip-lining and helping each other in Squirrel Scramble

Appreciating pastels in The National Gallery.

Sports Day

We have been so lucky to make full use of our fabulous new Outdoor Classroom. Here we are designing and making boats to learn about cause and effect.

On our trip to Irish Aid we learned about Global Goals, sang a song in Swahili, played djembe drums, wore traditional African wraps and enjoyed the beautiful Iveagh Gardens.

Art Day

Designing a bridge using only paper in Science

We learned about the life-cycle of a chicken and saw the chicks hatch from eggs to curious little cuties.

A trip to Botanic Gardens to see the Sculpture in Context Exhibition.

We were learning about buildings and wanted to design a town. The children decided what they wanted in their town and worked together to make it using clay, pastels and lots of imagination.

Grandparents Day Without doubt the best day of the year. We got to share all our work, play games and appreciate everything that is wonderful about our amazing grandparents.
