Sylvia's 5th class, June 2025

We've had a super creative year, with a high focus on The Arts. Our wonderful Poetry Anthologies were filled with deeply thoughtful and inspiring poetry that we composed ourselves. We enjoyed attending plays in the Axis Theatre and in the Ark and over term 3, we put our hearts and souls into our production of Hamlet, an adapted play for 5th class. What an amazing achievement for every student in the class.

In Music, we've learnt a class instrument this year and have seen that, with short, regular practise, our recorder orchestra can sound great!

We've loved all our Visual Arts activities in 5th class and have finished off this term learning to sew.

The creative experiences we've had over the year spilled into all our subjects, with creative problem solving in maths, entertaining and informative palm oil podcasts in Learn Together and many amazing projects.

This year, we also visited 8 classes to teach them all about electronics!

We loved working with other classes during maths week and we learned how to play Bridge too.

We worked hard in 5th but, best of all, we had fun with friends.

Happy Holidays 5th Class
